

Subject Index

Page numbers with prefix S are found in Supplement 1 (January).

Page numbers with prefix B are found in Supplement 2 (March).

Page numbers with prefix C are found in Supplement 3 (April).

A

Abortion, previous maternal, and decreased risk of type 1 diabetes in male offspring, 1063

Acanthosis nigricans, quantitative scale for, 1655

Acarbose

- and aminotransferase activity in type 2 diabetes, 1217
- effect of fiber intake and meal pattern on gastrointestinal symptoms with, 1227
- interaction with digoxin, 860
- in type 2 diabetes shows improved glycemic control over 3 years, 960
- and weight loss in type 2 diabetic patient, 645

Accidents, in type 1 diabetes, B1

ACE gene polymorphism
and arterial stiffness in type 2 diabetes, 1858
and proliferative retinopathy in type 1 diabetes, 1530

ACE inhibitor(s)

- and improved endothelial function in type 1 diabetes, 1536
- induced cough, in hypertensive type 2 diabetic patients, 1586
- ACE insertion/deletion polymorphism, relationship with glomerular hyperfiltration, in type 1 diabetic children and adolescents, 618

Adipose tissue, visceral, age-related increase in, and metabolic risk profile of premenopausal women, 1471

Adiposity

- central, associated with multimetabolic syndrome in women with prior gestational diabetes, 876
- effects of maternal gestational diabetes on offspring, 1284
- leptin and, 1097

Adolescent

- blood volumes and pain following capillary punctures in, 1592
- diabetes management in, 713
- discordance between physician and, in adherence to treatment, 1445
- glomerular hyperfiltration and ACE insertion/deletion polymorphism, in type 1 diabetic, 618
- improving diabetes control in, 1767
- insulin-dependent diabetic, anti-HCV antibodies in, 1587
- lispro or regular insulin for multiple injection therapy in, 27
- with poorly controlled type 1 diabetes, failure to maintain benefits of home-based intervention in, 1933
- with type 1 diabetes
 - continuous subcutaneous insulin infusion and, 1779
 - increased Na/Li countertransport activity may help those at risk for developing persistent microalbuminuria, 1158
 - leptin in, 1590
 - physical activity and competitive sports in, 1904

urinary excretion of albumin in, 1555

Adults, management of dyslipidemia in, S56

Advanced glycation end products
serum levels increased in patients with type 2 diabetes and coronary heart disease, 1543

serum levels of, and left ventricular diastolic function in type 1 diabetes, 1186

Advanced glycosylation end products, and hyperglycemia in pathogenesis of complications, B65

African-Americans
children

- influence of social environment and year of birth on type 1 diabetes risk in, 78
- insulin sensitivity in, 1325
- ketoacidosis in obese and lean, immunogenetic analysis suggests different pathogenesis for, 1517
- parental history of type 2 diabetes and insulin sensitivity and glucose effectiveness in obese nondiabetic offspring of African-American parents, 1594

sex differences in, and sensitivity to insulin's glucoregulatory and antilipolytic actions, 71

urban

- availability of rapid HbA_{1c} measurements enhances clinical decision-making, 1415
- barriers to provider adherence to management protocols and, 1617
- overcoming clinical inertia improves glycemic control in type 2 diabetes in, 1494
- with varying degrees of glucose intolerance, cardiovascular risk factors in, 1588

Age

- of children with type 1 diabetes, microalbuminuria prevalence varies with, 495
- and incidence of type 2 diabetes in Australian aboriginal population, 1993

ALADIN III Study, 1296

Albumin-to-creatinine ratio
and prediction of albumin excretion rate, 1597

and screening for nephropathy, 1599, 1600
Albumin excretion rate
prediction of from albumin-to-creatinine ratio, 1597

urinary

- in adolescents with type 1 diabetes, 1555
- and body composition and hyperinsulinemia in normotensive glucose-tolerant adults, 1728
- in normoalbuminuric normotensive type 1 diabetes, 1512

Albuminuria

- fasting and post-methionine levels of homocysteine in NIDDM, implications for, 125
- in type 1 diabetes, increased small dense LDL and intermediate-density lipoprotein and, 1165

Alcohol consumption

- relationship to fasting and postload glucose levels, 430
- and risk of type 2 diabetes in Japanese men, 1432

α -Glucosidase inhibitor, *Pneumonia cystoides intestinalis* after treatment with, 366

α -Lipoic acid

- antioxidant, and treatment of symptomatic polyneuropathy, 1296
- treatment, and decreased serum lactate and pyruvate concentrations and improved glucose effectiveness in lean and obese patients with type 2 diabetes, 280

α -Tocopherol, induces leptin expression, 1227, 1228

American Diabetes Association, criteria, concordance with WHO criteria in Northwestern Italian population, 652

American Diabetes Association diagnostic criteria, compared with WHO diagnostic criteria, 1755, 1756

American Diabetes Association, 1997 fasting criteria, concordance with WHO criteria in Mexican subjects, 527

American Diabetes Association Annual Meeting, 1998, 170, 357, 517, 640

American Diabetes Association Annual Meeting, 1999, 1899, 2078

American Indians, glycemic control in, 1802

American Orthopaedic Foot and Ankle Society, diabetic shoe survey, 2099

Aminotransferase activity, and acarbose treatment in type 2 diabetes, 1217

Amputation(s)

- limb salvage experience in multidisciplinary diabetic foot unit, B97
- lower-extremity, 1029
- incidence of, 951
- prevention by vascular surgery and podiatry collaboration, 679

Amyloid proteins, pancreatic, relation to diabetes, 1590

Amyotrophy, spontaneous recovery of severe weight loss in, 1906

Anemia, blunted erythropoietin response to, in type 1 diabetes, 647

Angioplasty, primary, compared with thrombolysis in acute myocardial infarction, 647

Anti-GAD65, diabetes, ketosis in, 1910

Anti-HCV antibodies, in insulin-dependent diabetic children and adolescents, 1587

Antioxidant status, after improvement in metabolic control in type 2 diabetes, 2083

Antioxidant supplementation, oxidative stress and, in type 1 diabetes, 870, 871

Aortic pulse-wave velocity, correlation between intima-media thickness of carotid artery and, 1851

Apolipoprotein(B), identifies dyslipidemic phenotypes associated with cardiovascular risk in normocholesterolemic type 2 diabetes, 812

Appetite, reduced, continuous subcutaneous infusion of GLP-1 and, in type 2 diabetes, 1137

Arterial pressure, normal, ACE inhibitors improve endothelial function in type 1 diabetes with, 1536

Arterial stiffness, and ACE gene polymorphism in type 2 diabetes, 1858

Asian Indians, GAD65 antibodies in classification of, 175

Asians, type 2 diabetes in, GAD antibodies in classification of, 1011

Aspirin therapy, S60

Atherosclerosis

- augmentation of central arterial pressure in type 1 diabetes, 1722

- LDL particle size as independent predictor of glycated LDL level, 1220
macrovascular disease and risk factors for, C21
and serum lipoprotein(a), 93
Atherosclerosis Risk in Communities (ARIC) Study, 767
Atrial natriuretic peptide concentration, decreased plasma, in hyperosmolar-hyperglycemic nonketotic syndrome, 1181
Atrial natriuretic peptide-like immunoreactivity excretion, increased urinary, in hyperosmolar-hyperglycemic nonketotic syndrome, 1181
Australian aboriginal population, incidence of type 2 diabetes in, 1993
Autoantibodies
 islet, progression to diabetes in relatives with, 2049
 red blood cell, with shortened erythrocyte life span as cause of lack of relation between glycosylated hemoglobin and mean blood glucose levels in woman with type 1 diabetes, 2085
Autoantibody, -based risk assessment in family members, 1796
Autoimmune diabetes, type 1A, immunologic "vaccination" for prevention of, B7
Automobile crashes, in elderly, diabetes and, 220
Autonomic sympathetic dysfunction, detection, 593
- B**
Bacillus Calmette-Guerin vaccine, effect on new-onset type 1 diabetes, 1703
Behavioral science in diabetes, 832
Benzodiazepine, interruption, as cause of hypoglycemia, 2098
- β-Cell(s)**
autoimmunity, lack of association with early childhood immunizations, 1694
function, proinsulin and, in lean and obese subjects with and without type 2 diabetes, 609
residual function in type 1 diabetes, cellular immune response to GAD in, 1758, 1759
- Birth weight
 diabetes in pregnancy and cesarean delivery, 1561
 and endothelial function, 2061
 low, and glucose intolerance in Swedish middle-aged men, 1043
 and type 2 diabetes in Pima Indian children and young adults, 944
 of women with gestational diabetes, 1059
- Birth year, influence on type 1 diabetes risk in African-American and Latino children, 78
- Blood glucose
 awareness training, and epinephrine responses to hypoglycemia in type 1 diabetes, 1022
 bedside monitoring of in hospitals, S81
 contribution of postprandial versus interprandial to HbA_{1c}, in type 1 diabetes on physiologic intensive therapy with lispro at mealtime, 795
 fasting, risk factor for cardiovascular death, 45
 intensive policies to improve, and quality of life in type 2 diabetes, 1125
 self-monitoring, reliability of, and glycemic control in type 1 diabetes, 854
- Blood pressure
 ambulatory monitoring of, in pregnant women with type 1 diabetes, 1507
 changes in, in normoalbuminuric normotensive type 1 diabetes, 1512
 circadian, during early course of type 1 diabetes, 1151
 control of, and quality of life in type 2 diabetes, 1125
 high normal, and risk of type 2 diabetes in Japanese men, 1683
 systolic, and plasma triglycerides in diabetic peripheral arterial disease, 453
 toe, as predictor for outcome in foot ulcers, 147
- Body adiposity, leptin and, 1097
- Body composition
 effect of walking on, in normoglycemic women and women with type 2 diabetes, 555
 and urinary albumin excretion and hyperinsulinemia in normotensive glucose-tolerant adults, 1728
- Body fat
 age-related increase in, and metabolic risk profile of premenopausal women, 1471
 thiazolidinedione and, in type 2 diabetes, 288
- Body fat distribution
 association with fasting insulin and risk of ischemic stroke, 1077
 effect of troglitazone on, in type 2 diabetes, 908
 and glucose tolerance status, 1938
- Body mass index
 and C-reactive protein among U.S. adults, 1971
 and incidence of type 2 diabetes in Australian aboriginal population, 1993
- Body weight, in teenagers and young adults with type 1 diabetes, 1956
- Bone density
 impact of peripheral neuropathy on, in type 1 diabetes, 827
 in type 1 and type 2 diabetes, 1196
 Bruneck Study, 1339
- Bulimia nervosa, hypersensitivity to regular and intermediate insulin and, in type 1 diabetes, 1221
- C**
Calcium antagonists, and cardiovascular risk in diabetes, 1207
Canadians, aboriginal, youth-onset type 2 diabetes associated with HNF1A S319 in, 2095
Capillary whole blood measurement, of islet autoantibodies, 275
Carbohydrate, meal content, effects on insulin requirements in type 1 diabetic patients treated intensively with basal-bolus (ultralente-regular) insulin regimen, 667
Carbohydrate counting, insulin dosage guide for, in type 1 diabetes, 1252
Carbohydrate metabolism, abnormalities of, prevalence in U.S. Army population, 426
Carboxymethyl lysine, not increased in type 2 diabetes without nephropathy, 877
Cardiac autonomic (dys)function
 in diabetic children, 1845
 impaired diurnal, in type 2 diabetes, 2072
 Cardiac autonomic neuropathy
 asymptomatic coronary artery disease and, in type 2 diabetes, 1745
 diagnosis of, 1387, 1388
 noninvasive exploration of, 388
 Cardiovascular complications, reducing in type 2 diabetes, 1769
 Cardiovascular death, fasting blood glucose as risk factor for, 45
 Cardiovascular disease, C14
 in Europeans with type 1 diabetes, fiber intake and serum cholesterol levels and, B21
 fasting and post-methionine levels of homocysteine in NIDDM, implications for, 125
 glucose as continuous risk factor of mortality due to, 659
 hyperglycemia and, C31
 impaired fasting glucose and, 1919
 impaired glucose tolerance as risk factor for, 920
 improving prognosis in, B89
 insulin resistance and, C31
 risk of, fasting blood glucose and, 1385, 1386
 in type 2 diabetes, 1739
 Cardiovascular drug metabolism, effects of diabetes on, 982
 Cardiovascular events
 incident, glucose and, 233
 prediction of, in high-risk NIDDM patients, 19
 Cardiovascular Health Study, 1989-1997, 736
 Cardiovascular mortality, impaired fasting glucose not a risk factor for, 2103
 Cardiovascular resource utilization, simvastatin and, 1771
 Cardiovascular risk
 in African-Americans with varying degrees of glucose intolerance, 1588
 calcium antagonists and, 1207
 effect of walking on, in normoglycemic women and women with type 2 diabetes, 555
 glycemic control and, 1220
 improved glycemic control reduces impact of weight gain on, in type 1 diabetes, 1084
 and insulin sensitivity in type 2 diabetes, 562
 in normocholesterolemic type 2 diabetes, apolipoprotein(B) identifies dyslipidemic phenotypes associated with, 812
 prevalence of diabetes and ethnic differences in, 241
- Care
 implementing practice guidelines for, using problem-based learning, 1672
 improvements in as measured by HbA_{1c}, after physician education project, 1612
 improving prospect of, 635
 moving from compliance to adherence is not enough, 2090
 third-party reimbursement for, S105
Carotid artery, intima-media thickness of, correlation with aortic pulse-wave velocity in type 2 diabetes, 1851
Carotid atherosclerosis, plasma glucose in normal range not associated with, 1339
Celiac disease, no effect of gluten-free diet on metabolic control of type 1 diabetes in patients with, 1747
Centers for Disease Control and Prevention—

- Managed Care Workshop, 1734
- Central adiposity, associated with multimetabolic syndrome in women with prior gestational diabetes, 876
- Central arterial pressure, augmentation of, in type 1 diabetes, 1722
- Central pontine myelinolysis, 998
- Cesarean delivery, in diabetes, 1561
- Children
- African-American
 - influence of social environment and year of birth on type 1 diabetes risk in, 78
 - insulin sensitivity in, 1325
 - blood volumes and pain following capillary punctures in, 1592
 - cardiac autonomic dysfunction in diabetic, 1845
 - with diabetes, care of in school/day care setting, 163, S94
 - poor metabolic control and decreased growth velocity in, 1012
 - enteroviral RNA and IgM antibodies in early pregnancy and risk for childhood-onset IDDM in, 364
 - Finnish, onset age of type 1 diabetes in, 1066
 - glomerular hyperfiltration and ACE insertion/deletion polymorphism, in type 1 diabetic, 618
 - health promotion and risk factors in, 189
 - insulin-dependent diabetic, anti-HCV antibodies in, 1587
 - ketoacidosis prevention program for, 7
 - Latino, influence of social environment and year of birth on type 1 diabetes risk in, 78
 - male, previous maternal abortion, longer gestation, and younger maternal age decrease risk of type 1 diabetes in, 1063
 - memory and metabolic control in, 1239
 - Mexican-American, risk factors in low-income, 203
 - perinatal risk factors for type 1 diabetes in, 1698
 - Pima Indian, birth weight, type 2 diabetes, and insulin resistance in, 944
 - prepubertal with type 1 diabetes, counterregulation during spontaneous nocturnal hypoglycemia in, 1144
 - with type 1 diabetes
 - conventional versus intensive therapy in, 1318
 - 8 mm needles reduce risk of intramuscular injections in, 1621
 - leptin in, 1590
 - microalbuminuria prevalence varies with age, sex, and puberty in, 495
 - pen injectors versus insulin syringes in, 137
 - perinatal and neonatal determinants of, 928
 - physical activity and competitive sports in, 1904
 - predictors of change in neuropsychological profiles of, 1438
 - very young, with type 1 diabetes, clinical, autoimmune, and genetic characteristics of, 1950
 - Chinese
 - cultural adaptations of quality-of-life measure for, 1216
 - young patients with type 2 diabetes, plasma insulin, growth hormone, cortisol, and central obesity among, 1450
- Cholesterol
- HDL, subfractions and risk of developing type 2 diabetes among Pima Indians, 271
 - LDL, analytic accuracy of calculated concentrations of, 371, 372
 - serum levels of, and cardiovascular disease in Europeans with type 1 diabetes, B21
 - troglitazone increases levels of HDL, 355
- Cholinesterase, as marker of metabolic syndrome, 1381, 1382
- Chylomicrons, postprandial serum, effect of oxidized lipids on oxidized lipid levels in, 300
- Circadian blood pressure, during early course of type 1 diabetes, 1151
- Circulating intercellular adhesion molecule 1, smoking and increased levels of, in young type 1 diabetic patients, 1871
- Clozapine, association with ketoacidosis in treatment with, 176
- Coagulation, abnormalities of, in insulin resistance, C25
- Cognitive function, effects of repeated hypoglycemia on, 1273
- Complications, 1364
- AGEs and hyperglycemia in pathogenesis of, B65
 - chronic, in patients with newly progressing autoimmune type 1 diabetes, 1347
 - eating habits, body weight, and insulin misuse in teenagers and young adults with type 1 diabetes, 1956
 - epidemiology of, 99
 - genetics and prediction of, in type 1 diabetes, B53
 - pathogenesis of in type 2 diabetes, 1209
 - and quality of life in type 2 diabetes, 1125
 - risk of infectious, perioperative glycemic control and, 1408
 - screening for, in HMO setting, 208
 - vascular, inflammation and, 1927
- Concurrent care, S101
- Consensus Development Conference on Diabetic Foot Wound Care, 1354
- Continuing medical education, short-term impact of, on providers' attitudes toward treatment, 1929
- Continuous subcutaneous insulin infusion, 1779, S87
- Control, prevalence of patients reaching target of good, 2092
- Coronary arteriosclerosis, hyperhomocysteinemia as risk factor for, in Japanese patients with type 2 diabetes, 484
- Coronary artery disease
- asymptomatic
 - and cardiac autonomic neuropathy and diabetic nephropathy in type 2 diabetes, 1745
 - screening for, 1393
 - glucose intolerance and risk of, 1262
 - high levels of circulating proinflammatory cytokines and leptin in urban Indians, 363
 - improving prognosis in, B89
 - in Japanese-American men, visceral adiposity and, 1808
 - Konjac-mannan improves glycemia and associated risk factors for, 913
 - serum levels of AGEs increased in patients with type 2 diabetes and, 1543
- soluble L-selectin as marker for, in type 2 diabetes, 2044
- Correctional institutions, management of diabetes in, S92
- Cortisol, and central obesity among young Chinese type 2 diabetic patients, 1450
- Cost(s)
- of foot ulcers, 382
 - incremental medical care, of type 2 diabetes during first 8 years after diagnosis, 1116
- C-reactive protein, body mass index, and diabetes among U.S. adults, 1971
- Creatinine clearance, high-dose vitamin E supplementation and, in type 1 diabetes, 1245
- Cyclosporine nephrotoxicity, in type 1 diabetes, 478
- Cystic fibrosis, -related diabetes, HbA_{1c}, determination, and clinical decision-making in, 1008, 1009
- Cytotoxicity, against neuroblastoma cells, specific fiber deficits in sensorimotor polyneuropathy correspond to, 1839
- D**
- Dead-in-bed syndrome, in young diabetic patients, B40
- Deafness, prevalence increased in patients with type 2 diabetes in the Netherlands, 180
- DECODE Study, 1667
- Depression
- comorbid, in older diabetic Mexican Americans, health burden associated with, 56
 - in diabetic adults, 448
 - in parents of children with type 1 diabetes, intensive insulin therapy does not reduce, 1372
 - and type 2 diabetes, 997
 - in Japanese men, 1071
- Diabetes camps, management of diabetes at, 167, S98
- Diabetes control, improving in adolescents, 1767
- Diabetes Control and Complications Trial, 99, 1273
- implications of, S24
- Diabetes Epidemiology: Collaborative Analysis of Diagnostic Criteria in Europe, 1667
- Diabetes interventions, epidemiology of, 99
- Diabetes management, office-based intervention to maintain parent-adolescent teamwork in, 713
- Diabetes
- anti-GAD65
 - ketois improved by diet therapy in, 1910
 - T-cell insulinitis in, 615
 - autoimmune, immunologic "vaccination" for prevention of, B7
 - and automobile crashes in elderly, 220
 - behavioral science in, 832
 - body mass index, and C-reactive protein among U.S. adults, 1971
 - childhood, nitrate in drinking water and risk of, 1750
 - cystic fibrosis-related, HbA_{1c}, determination and clinical decision-making in, 1008, 1009
 - diagnosis and classification of, report of expert committee on, S5
 - during pregnancy, impact of maternal nativity on prevalence of, 729
 - effects on cardiovascular drug metabolism, 982

- and exercise, 549
glucocorticoid-induced, troglitazone efficacy in, 2088
hospital admission guidelines for, 580
impact of new diagnostic criteria for, on different populations, 762
incidence, 773
ketosis-onset, long-term prognosis of islet cell antibody-negative, 1584
late-onset lipotrophic, 1374
Latino beliefs about, 722
level of care among patients with, 533
in Malta, 650
management of
in correctional institutions, 592
in HMO, 2011
mortality, 773
newly diagnosed in Italian patients aged 30-54 years, 50
nutrition recommendations for, 542
for health care institutions, 542
predictive model to identify undiagnosed, 213
in pregnancy and cesarean delivery, 1561
prevalence, 773
and cardiovascular risk factors, 241
in offspring of elderly men with known and newly diagnosed diabetes, 1919
research agenda for managed care, 1734
simvastatin and cardiovascular resource utilization in, 1771
standards of care, 532

clinical trial, 1757
Diabetic foot syndrome, correlation of imaging techniques to histopathology in, 294
Diagnosis
ADA criteria for, 366, 367, 368
criteria, consequences of, in older men and women, 1667
crucial points at, 859
impact of new diagnostic criteria for diabetes, on different populations, 762
Diet
composition, effect on plasma lipids and glucose in type 2 diabetes, 889
eating habits, in teenagers and young adults with type 1 diabetes, 1956
effect of oxidized lipids on oxidized lipid levels in postprandial serum chylomicrons, 300
low-glycemic index, for type 2 diabetes, improved glycemic control and lipid profile and normalized fibrinolytic activity and, 10
randomized trial of prepared meal program in type 2 diabetes, 191
therapy, and improved ketosis without insulin therapy in case of anti-GAD65 diabetes, 1910
Digoxin, interaction with acarbose, 860
Dual-energy X-ray absorptiometry
assessment, of fat mass distribution and its association with insulin resistance syndrome, 1310
discriminating glucose tolerance status by regions of interest of, 1938
Dyslipidemia
of central obesity and insulin resistance, C10
management of in adults, 556
E
Eating habits, in teenagers and young adults with type 1 diabetes, 1956
Edinburgh Artery Study, 453
Education
and metabolic syndrome in women, 1999
self-management, third-party reimbursement for, S105
in type 1 diabetes, B29
Elderly
antidiabetic treatment trends in, 736
diabetes and automobile crashes in, 220
men
diabetes prevalence in offspring of, 1919
GAD antibodies in, 996
Mexican Americans, comorbid depression in diabetic, 56
obese patients with type 2 diabetes, metabolic alterations in, 112
poor-sighted, safety of human insulin in, 2089
with type 2 diabetes
clinical features of, 1225, 1226
low-dose ethanol predisposes to
sulfonyleurea-induced low blood glucose, 2037
Employment, hypoglycemia and, S103
Endothelial (dys)function
ACE inhibitors and improved, in type 1 diabetes, 1536
and birth weight, 2061
not reversed by simvastatin treatment in type 2 diabetic patients with hypercholesterolemia, 1224
in patients with impaired fasting glucose, 2055
in type 2 diabetes, 973
Endothelium-dependent vasodilation, impaired, in type 2 diabetes, 973
Energy balance, leptin and, 1097
Energy restriction, effect on plasma lipids and glucose in type 2 diabetes, 889
Enteroviral RNA, in early pregnancy and risk for childhood-onset IDDM in offspring, 364
Enterovirus
antibodies, and islet cell antibodies in type 1 diabetes, 2086
vertically transmitted, and benefits of neonatal immunization, 1760
Epidemiology of Diabetes Complications Study, 1084
Epidemiology of Diabetes Interventions and Complications, 99
Epinephrine, responses to hypoglycemia, blood glucose awareness training and, 1022
Erythromycin, gastrokinetic effect of, hyperglycemia attenuates, 339
Erythropoietin response, to anemia in type 1 diabetic patients, 647
Estrogen, exogenous, and changes in retinopathy, 1984
Ethanol, low-dose, predisposes elderly fasted patients with type 2 diabetes to sulfonyleurea-induced low blood glucose, 2037
Ethnic differences, and prevalence of diabetes in cardiovascular risk factors, 241
Euglycemic insulin clamp, insulin sensitivity indices and, 1462
EURODIAB Substudy 2 Study Group, 1698
Europe, perinatal risk factors for type 1 diabetes in children in, 1698
European Association for the Study of Diabetes Annual Meeting, 1998, 989, 1364, 1578, 1209
Europeans, with type 1 diabetes, fiber intake, serum cholesterol levels, and cardiovascular disease in, B21
Exercise, 517
and diabetes, 549
effects of aerobic or resistance, on glucose tolerance and plasma insulin levels in obese men, 684
and oxygen uptake kinetic response in women with type 2 diabetes, 1640
and sulfonyleureas, and glucose homeostasis in type 2 diabetes, 1647
walking, effect on cardiovascular risk factors and body composition in normoglycemic women and women with type 2 diabetes, 555
Exercise training, effect on doses of oral agents and insulin, 1754
Exogenous estrogen, and changes in retinopathy, 1984
F
Factor VIII, relation to incident diabetes, 767
Family history, of diabetes, hyperinsulinemia and development of type 2 diabetes independently of, 86
Fasting blood glucose
day-to-day variability of, in newly diagnosed type 2 diabetes, 394
and glycated hemoglobin, in predicting likelihood of diabetes in community, 1908
impaired, 399
level, relationship to sex and alcohol consumption, 430
as parameter of glycemic control in non-insulin-using patients with type 2 diabetes, 904
and risk of cardiovascular disease, 1385, 1386
risk factor for cardiovascular death, 45
Fat
central abdominal, postmenopausal hormone replacement therapy and, 1401
distribution, thiazolidinedione and, in type 2 diabetes, 288
Fat mass distribution, dual-energy X-ray absorptiometry assessment of, 1310
Fat replacers, role in nutrition therapy, S90
Fatty acids, metformin and, 179
Ferritin, serum concentration among U.S. adults, 1978
Fiber intake
and cardiovascular disease in Europeans with type 1 diabetes, B21
effect on gastrointestinal symptoms with acarbose, 1227
Fibrinolysis, abnormalities of, in insulin resistance, C25
Fibrinolytic activity, normalized, low-glycemic diet in type 2 diabetes and, 10
Filipinos, with type 1 diabetes, GAD65 antibodies and tyrosine phosphatase-like

- molecule IA-2ic in, 1458
- Finland
- children in, onset age of type 1 diabetes in, 1066
 - glycemic control in diabetic patients in, 575
 - men, smoking and diabetes risk in, 1821
- Folate deficiency, is pregnancy in diabetic women associated with, 1017
- Food labeling, 588
- Foot, insensate, sources of discrepancies in use of Semmes-Weinstein monofilament, 598

- influence of blood glucose self-monitoring on glycemic control in, 854
- influence of glycemic control on zinc urinary excretion in, 362
- intensified treatment and education of, B29
- intensive and nonintensive treatment for hypoglycemia in, B43
- long-term intensive treatment of, with lispro in variable combination with NPH insulin at mealtime, 468
- in male offspring, previous maternal abortion, longer gestation, and younger maternal age decrease risk of, 1063
- meal carbohydrate content effects on insulin requirements in, 667
- metabolic control in, tumor necrosis factor- α and, 1749
- new approaches to, 1899
- newly progressing autoimmune, chronic complications in, 1347
- nicotinamide in, B16
- normoalbuminuric normotensive, changes in glomerular filtration rate, urinary albumin excretion rate, and blood pressure in, 1512
- onset age of in Finnish children, 1066
- oxidative stress and antioxidant supplementation in, 870, 871
- in patients with celiac disease, no effect of gluten-free diet on metabolic control of, 1747
- perinatal risk factors for childhood, 1698
- on physiologic intensive therapy with lispro at mealtime, contribution of postprandial versus interprandial blood glucose to HbA_{1c} in, 795
- plastic insulin dosage guide to correct blood glucose levels out of target range and for carbohydrate counting in, 1252
- pre-, primary and secondary prevention strategies of, B4
- pregnancy, improving prognosis in, B104
- in prepubertal children, counterregulation during spontaneous nocturnal hypoglycemia in, 1144
- prevalence of syndrome X in parents of patients with, 1048
- prevention, S102
- with residual β -cell function, cellular immune response to GAD in, 1758, 1759
- risk in African-American and Latino children, influence of social environment and year of birth on, 78
- serum levels of AGEs associated with left ventricular diastolic function, 1186
- severity of glomerulopathy predicts long-term urinary albumin excretion rate in patients with, 314
- slow, crucial points at diagnosis, B59
- stress and glycemic control in, 1278
- in teenagers and young adults, eating habits, body weight, and insulin misuse in, 1956
- in very young children, clinical, autoimmune, and genetic characteristics of, 1950
- vitamin E supplementation and oxidative damage to DNA and plasma LDL in, 1626
- Wegener's granulomatosis with pulmonary hemorrhage in boy with, 1591
- Wolfram syndrome in, fundoscopy for diagnosis of, 1376
- in women
- implanted insulin pump may represent chance to give birth for, 1001
 - red blood cell autoantibodies with shortened erythrocyte life span as cause of lack of relation between glycosylated hemoglobin and mean blood glucose levels in, 2085
- in young patients
- correlation of fingerstick blood glucose measurements with results of GlucoWatch Biographer in, 1708
 - and intensive therapy for macrovascular disease, B35
 - smoking and increased plasma circulating intercellular adhesion molecule 1 levels in, 1871
- Type 2 diabetes
- ACE gene polymorphism and arterial stiffness in, 1858
 - and acute myocardial infarction, 1832
 - α -lipoic acid treatment, and decreased serum lactate and pyruvate concentrations and improved glucose effectiveness in lean and obese patients with, 280
 - aminotransferase activity and acarbose treatment in, 1217
 - antioxidant effects of gliclazide and soluble adhesion molecules in, 528, 529
 - in Asians, GAD antibodies in classification of, 1011
 - association between macronutrient intake and lipoprotein profile in, 1632
 - asymptomatic coronary artery disease associated with cardiac autonomic neuropathy and diabetic nephropathy in, 1745
 - blood lipid levels in, diet and, 1605
 - bone mineral density in, 1196
 - C282Y and H63D mutations of hemochromatosis candidate gene in, 525
 - cardiovascular disease in, 1739
 - cause-specific mortality in, 756
 - comparison of repaglinide and glyburide in treatment of, 463
 - continuous subcutaneous infusion of GLP-1 and lower plasma glucose, reduced appetite in, 1137
 - correlates of physical activity in sample of older adults with, 706
 - correlation between intima-media thickness of carotid artery and aortic pulse-wave velocity in, 1851
 - crucial points at diagnosis, B59
 - current therapeutic options in, C65
 - depression in, 997
 - early-onset autosomal-dominant, phenotypic characteristics unlinked to MODY genes, 253
 - effect of energy restriction, weight loss, and diet composition on plasma lipids and glucose in, 889
 - effect of troglitazone on body fat distribution in, 908
 - effects of hyperglycemia and improvement of glycemic control on macrovascular events in, C54
 - effects of postmenopausal hormone replacement therapy on central abdominal fat, glycemic control, lipid metabolism, and vascular factors in, 1401
 - effects of thiazolidinedione on body fat and fat distribution in, 288
 - in elderly
 - clinical features of, 1225, 1226
 - low-dose ethanol predisposes to sulfonyleurea-induced low blood glucose, 2037 - elevated remnant-like lipoprotein particles in, 152
 - emerging epidemic of in youth, 345
 - excess maternal transmission of, 938
 - fasting and post-methionine levels of homocysteine in, 125
 - fasting proinsulin concentrations predict development of, 262
 - G825 polymorphism in RAGE gene and skin complications in, 1745
 - glucose control in, C57
 - glycemic control in, repaglinide with metformin and, 119
 - HDL cholesterol subfractions and risk of developing among Pima Indians, 271
 - high normal blood pressure, hypertension, and risk of, in Japanese men, 1683
 - with hypercholesterolemia, simvastatin does not reverse endothelial dysfunction in, 1224
 - hyperhomocysteinemia as risk factor for coronary atherosclerosis in Japanese patients with, 484
 - hyperinsulinemia and development of, 86
 - hypertensive, ACE inhibitor-induced cough in, 1586
 - impaired diurnal cardiac autonomic function in, 2072
 - improving prognosis in, B84
 - incidence in Australian aboriginal population, 1993

- increased intimal-medial thickness in newly detected, 333
- increased urinary transferrin excretion as predictor of microalbuminuria in, 1176
- incremental medical care costs during first 8 years after diagnosis, 1116
- insulin sensitivity, 562
- in African-American children with and without family history of, 1325
- insulin therapy in, C65
- and macrovascular risk factors in, C45
- insulin-treated
- immediate feedback of HbA_{1c} levels and improved glycemic control in, 1785
- and risk of foot ulcers, 1379
- insulinitis, in autoimmune-mediated patient originally classified as having, 541
- interaction of sulfonylureas and exercise on glucose homeostasis in, 1647
- in Japanese men
- alcohol consumption and risk of, 1432
- depressive symptoms and occurrence of, 1071
- Konjac-mannan improves glycemia and associated risk factors for coronary heart disease in, 913
- lack of effect on LDL oxidation and antioxidant status after improvement in metabolic control in, 2083
- in lean and obese subjects, proinsulin and β -cell function in, 609
- lispro Mix25 insulin as premeal therapy in, 459
- liver disease in patients treated with oral antidiabetic agents, 2067
- low-glycemic index diet for, improved glycemic control and lipid profile and normalized fibrinolytic activity and, 10
- macrovascular disease in, C2
- risk factors, C6
- meal-related glycemic control by repaglinide and glyburide in, 789
- metformin
- added to insulin therapy in poorly controlled, 854
- as adjuvant to insulin therapy in, 528
- efficacy in treatment of, 33
- microvascular dysfunction in non-glaucomatous skin of, 1549
- in middle-aged and elderly obese patients, metabolic alterations and, 112
- in the Netherlands, prevalence of deafness increased in, 180
- newly diagnosed, day-to-day variability fasting plasma glucose in, 394
- non-insulin-using patients with, fasting plasma glucose as parameter of glycemic control in, 904
- in nonobese Japanese, insulin-sensitive and insulin-resistant variants in, 2102
- normocholesterolemic, apolipoprotein(B) identifies dyslipidemic phenotypes associated with cardiovascular risk in, 812
- oral agent therapy in, C61, C65
- oral antihyperglycemic agents and macrovascular risk factors in, C41
- parasympathetic neuropathy in, obesity, microalbuminuria, hyperinsulinemia, and increased PAI-1 activity associated with, 1907
- parental history of, and insulin sensitivity and glucose effectiveness in obese nondiabetic offspring of African-American parents, 1594
- pathogenesis of complications, 1209
- in patients with different subtypes of ischemic stroke, insulin resistance and, 1191
- pharmacologic induction of weight loss in, 896
- prediction of cardiovascular events in high-risk, 19
- prevalence of patients reaching target of good control in, 2092
- prevention, 623
- progression of retinopathy after improved metabolic control in, 1944
- and pseudohypoparathyroidism and obesity, 523
- quality of life in, affected by complications but not by intensive policies to improve blood glucose or blood pressure control, 1125
- racial difference among individuals with, and risk of retinopathy, 779
- racial and ethnic differences in glycemic control in, 403
- randomized trial of prepared meal program in, 191
- reducing cardiovascular complications in, 1769
- requiring insulin, insulin-sensitizing agents and, 1004
- revised standards for treatment of, in Texas, 1219
- screening for, 520
- serum levels of AGEs increased in patients with coronary heart disease and, 1543
- significant improvement in HbA_{1c} in morbidly obese patient with, after gastric bypass, 651
- soluble L-selectin as marker for coronary artery disease in, 2044
- sustained improvement of glycemic control by insulin treatment after 9 years in patients with, 1373
- therapeutic approaches to, C1
- therapeutic options in, C76
- total plasma homocysteine and insulin levels in, with secondary failure to oral agents, 2097
- treated with sulfonylureas, and homeostasis model assessment as clinical index of insulin resistance, 818
- treating obesity in, 886
- treatment, 170, 357, 1209
- trial of acarbose in shows improved glycemic control over 3 years, 960
- troglitazone in treatment of, 1568
- underdiagnosis of, using ADA criteria, 649
- in urban African-Americans, overcoming clinical inertia improves glycemic control in, 1494
- use of insulin therapy alone as pharmacological treatment for, C71
- use of metformin for, in large HMO, 38
- weight change and duration of overweight and obesity in, 1266
- weight loss in, treatment with acarbose and, 645
- without microalbuminuria, soluble intercellular adhesion molecule, vascular cell adhesion molecule, and impaired microvascular reactivity as early markers of vasculopathy in, 1865
- without nephropathy, increased levels of serum pentosidine but not carboxymethyl lysine in, 877
- in women
- effect of walking on cardiovascular risk factors and body composition on, 555
- exercise training and oxygen uptake kinetic response in, 1640
- in young Chinese, and plasma insulin, growth hormone, cortisol, and central obesity, 1450
- in young cocaine abuser, hyperglycemic hyperosmolar nonketotic syndrome, as initial presentation of, 1380
- youth-onset, associated with HNF1A S319 in aboriginal Canadians, 2095
- Tyrosine phosphatase-like molecule IA-2c, and GAD65 antibodies, in Filipino type 1 diabetic patients, 1458
